Best SSL VPN
Nortel VPN Gateway
Nortel

The Nortel VPN Gateway portfolio is a secure access solution that extends enterprise applications and resources. The VPN Gateway offers the industry's most convenient, flexible and cost-effective secure access solution on the market today. Nortel's SSL VPN technology offers true freedom of mobility to a broad range of applications by giving remote users more opportunities to communicate securely. Users are assured consistent, secure access to Voice/Data/Multimedia applications from their laptop computer, a PC at a customer site, a web browser-equipped PDA or smart phone, or an internet terminal in a public location.

The SC Magazine Awards highlight and showcase the best products, services and professionals in the information security industry. SC Magazine had over 1300 company nominations for its 2006 Global Awards.

Nortel ranks #2 in SSL VPN Market share according to Infonetics Research (Q3 2005).
