

Paul G. Rice
President

Paul G. Rice is the President and a founding partner of PEC Solutions.

During PEC's 20-year history, Mr. Rice has served in high-level key positions, including that of Chief Operating Officer from 1996 to 2004. Prior to founding the company in 1985, Mr. Rice worked for 9 years in technical management positions at Computer Sciences Corporation.

Mr. Rice has lectured on topics relating to methodologies for performing cost/technical tradeoff analyses, strategic acquisition planning, technology refreshment, transition from the competitive process to program performance, benchmark/performance pilot system validation, performance measurement, and ADP/communications system technologies. Mr. Rice also served on the faculty of the GSA Trailboss Acquisition Managers' Training Program and the Trailboss companion course for implementation management.

Mr. Rice has broad experience in information technology and has been responsible for the engineering and development of data communications, information management, infrastructure, and control systems applications. He guided the development of system engineering tools and methodologies for information systems architectural design, technology acquisition, and implementation management.

His technical education includes a Bachelor of Science in electrical engineering from the University of Virginia, and graduate studies at George Washington University. He currently sits on the Industry Advisory Board for University of Virginia's School of Engineering and Applied Sciences.

In 2002, Mr. Rice and his partners received the Ernst and Young Entrepreneur of the Year Award.
