

PLANTRONICS
SOUND INNOVATION™

Plantronics SupraPlus Headsets Provide Commercial-grade Quality for Nortel IP and Digital Phones

Plantronics SupraPlus telephone headsets continue to set the standard for durable, lightweight, corded headsets designed for contact center and office professionals. Backed by Plantronics heritage in headset design, SupraPlus expands on the classic corded headset style and functionality, incorporating new features such as improved sound quality, enhanced stability and an updated, stylish design.

Key Features and Benefits:

- Improved Receive-Side Audio Quality

A greater receive-side frequency response improves listening intelligibility. Now you hear every word more clearly, and you hear it right the first time.

- Stylish, Lightweight, and Comfortable Design

The lighter, more flexible cable, comfort headband and T-Pad design, as well as the bendable noise-canceling microphone boom provide maximum comfort, while working to enhance audio quality and the user experience.

- Quick Call Feature

Headband twists out of the way for convenient quick call pick up.

- Voice Tube and Noise-Canceling Microphone

Voice tubes are lightweight and unobtrusive, and noise-canceling microphones allow clear conversations in noisy environments.

- Monaural or Binaural

Monaural lets you hear the conversation and what's going on around you. Binaural cuts out distracting background noise.

NORTEL
Compatible Product

Leveraging the strengths of its Developer Partners and their Compatible Products, the Developer Program has become a key contributor in the success of Nortel by broadening its reach and responsiveness in meeting the needs of its channels and customers. Each Nortel Compatible Product has met established requirements for integration, functionality and stability, further reducing total cost of ownership.

The SupraPlus P251N Monaural and P261N Binaural telephone headsets provide business critical reliability and comfort. SupraPlus headsets not only meet and/or exceed all specifications set by our existing world-class professional headsets; they deliver a new level of all-day, every-day comfort and reliability.

With Plantronics Quick Disconnect, SupraPlus headsets work with all Plantronics amplifiers and USB-to-headset adapters. Direct connect Polaris versions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.
